

Akinada Tobishima Kaido Cycling Map

12th edition

Cycling manners

- Bicycles should **keep left**. Please go in single file.
- When you are allowed to go through sidewalks, **go with reduced speed giving priority to pedestrians**.
- Please follow traffic lights and traffic signs.
- **At the intersection, please take a hook turn**. If there is no bicycle crossing zone at the pedestrian crossings, please walk while pushing your bicycle.
- **Drunken driving is absolutely prohibited**.
- Refrain from **listening to music with earphones, using a smartphone, or holding an umbrella, etc.** while cycling.
- **Always put on your helmet** for your safety.
- When it gets dim, please **turn the bike lights on** to let others around you notice. (Same as in the tunnels). Also, to make the vehicles behind you notice, please put on a **red tail light or a reflector**.
- Islands have many narrow roads, so please **moderate your speed** in order to prevent collision accidents.

This cycling map is made of stone paper which is strong against water and friendly to the environment.

Since stone paper, whose main raw material is inorganic mineral powder extracted from stone, does not use wood chips, valuable forest resources can be protected. In addition, there are no processes such as drying or washing during the production. Strong acids, alkalis, and bleaching agents are also not used. Therefore, there is no pollution in the rivers and seas with wastes such as wastewater and waste gas.
